

How to Form a New STFM Group: If your interests are not reflected in the annual report list of existing groups, there is an established mechanism for forming new ones.

Groups may be formed by an interested group of Society members requesting STFM group status from the Board of Directors. The group purpose is defined by the members who wish to form such a group and submit written goals to the Board for its approval. The designation of a group is for 1 year and can be renewed indefinitely by the Board as long as there remains adequate interest by the members. Renewal requires a report to the Board by the group chair, which includes goals and objectives. Membership in a group is open to all STFM members. If you are interested in forming a new STFM group, send the following to Stacy Brungardt.

- Proposed name for the group and its purpose
- Group chair name and contact information
- Listing of initial group members
- Group Goals (There is no requirement for a specific number of goals.)
