

*It's a joy to take STFM's first class educational materials on the road and work with enthusiastic groups of faculty in their home setting. This program helps STFM become the go-to resource for every family medicine educator.*

---Alison E. Dobbie, MB ChB, MRCGP

*STFM on the Road provided a means for many of our preceptors to get training they might have been able to receive. Having the training come to us was economical and well-worth the investment. In addition, the STFM staff coordinating the program met all of our planning needs, and our STFM faculty presenter, Dr. Alison Dobbie was able to tailor the day's activities and topics to interests of a very diverse group that included, doctors from various specialties, pharmacists, and nurses. I would recommend this to any organization looking for an efficient and economical way to provide professional development opportunities to their faculty!*

---Lisa Browning, Riverstone Health
