Meet Your 2020 STFM Annual Conference Partners at the Partner Exchange

Thank you, 2020 Annual Conference partners and supporters for your participation in this year’s virtual conference. The Partner Exchange, scheduled for Tuesday, August 25 (12:45-1:30 pm CDT and 4:45-5:30 pm CDT) is a unique, live virtual experience, allowing you to meet conference partners and supporters to learn more about their products and services for family medicine education.

Please check with individual partners and supporters to schedule one-on-one meetings at other times during and following the conference.

2020 Elite Conference Partner

National Institute on Drug Abuse (NIDA)

Title: CTN Dissemination Initiative—Moving Science from Research to Practice
Description: The National Institute on Drug Abuse (NIDA) Clinical Trials Network (CTN) Dissemination Initiative works in collaboration with NIDAMED to provide education and resources to clinicians. Through collaboration among clinicians, researchers, and experienced trainers, user-friendly tools and products are being developed on an ongoing basis to facilitate the adoption of research-based interventions into clinical settings.
Website: https://www.drugabuse.gov/nidamed-medical-health-professionals/ctn-dissemination-initiative

Products and Materials:
NIDA works with researchers and other experts to develop resources to facilitate the translation of research into clinical practice. Information about selected resources is provided below.

Screening for Substance Use Disorders:
The Tobacco, Alcohol, Prescription medication, and other Substance Use (TAPS) Tool is validated for use with adults to generate a risk level for each substance class. For validated online screening tools for adolescents, visit NIDAMED's Screening Tools for Adolescent Substance Use.
Website: https://www.drugabuse.gov//taps/#/

Health Professions Education:
The NIDA CTN website offers videos, podcasts, and CME education experiences to health care professionals. Please see NIDA CTN Dissemination Initiative. (drugabuse.gov/nidamed-medical-health-professionals/ctndissemination-initiative)
Website: https://www.drugabuse.gov/nidamed-medical-health-professionals/ctn-dissemination-initiative

Mentor Facilitated Training Awards:
The Mentor-Facilitated Training (MFT) award program was developed to support the advancement of expertise in substance use disorders (SUD) through a mentored experience. Goals of the program include teaching mentees more about SUDs and supporting innovative ways to address gaps in current knowledge and practices with guidance and interaction from leading experts in the field. This initiative aims to reach the full spectrum of healthcare professionals through activities in collaboration with other organizations, such as conferences workshops, and specialty courses.
2020 Conference Partners

A.T. Still University
Title: Creative Ways to Bring OR to MD and DO Faculty and Residents
Description: This presentation highlights practical approaches to integrating Osteopathic Recognition training that brings value to patients, enhances meaning for residents providing care, and reduces burnout. Presenters will share strategies to enact key osteopathic principles into practice that affect curriculum, assessment, and scholarship, such as the utilization of online resources, bedside teaching, and faculty development to strengthen the training provided by both MD and DO residents and faculty.
